NimbusDesk User Manual

Version 3.0 | Published 2025-06-10 | Brightwave Systems

1. Overview

This manual covers version 3.0 of NimbusDesk and replaces the version 2.1 manual. Version 3.0 adds roles, expanded single sign-on and stricter password reset rules.

2. Signing In and Passwords

Passwords must contain at least 8 characters and cannot reuse any of the last 5 passwords. The password reset link is valid for 1 hour. Lockout rules are unchanged from version 2.1. Administrators can set the session timeout between 15 and 480 minutes, and the default is 60 minutes.

3. Roles and Two-Factor Authentication

NimbusDesk 3.0 has three roles: Agent, Admin and Owner. Two-factor authentication is mandatory for the Admin and Owner roles and optional for Agents. Only the Owner can change billing details or delete the workspace.

4. Single Sign-On

SAML single sign-on is available on the Pro and Enterprise plans. Users who sign in through SSO do not use NimbusDesk passwords. Workspace owners can enforce SSO so that password sign-in is disabled for all members.
